All,

Can I express my appreciation of the impressive work output and ethic whilst carrying out the rig moves and flare stack replacement and it goes without saying a goal of no harm to people and no damage is a testament to you all.

Also attached is the rig managers view of the activity

If I can be of further assistance please do not hesitate to call

Dear Mike,

Please accept and relay my compliments to the Seafox 7 crew for the excellent execution of the flarestack exchange project.

The efficient and safe operation you've just completed earns a lot of respect.

Regards,
